

Salt Lake City, UT (February 26-28, 2016)

This is a very special regional semi-final, as it is the only location where in addition to the competition, YAGP will also present a Gala performance – so participants will not only have the opportunity to compete and take master classes, they will also have a chance to perform on a professional stage for general audience after the competition is over. The competition and the Gala will take place at the beautiful, historic Capitol Theatre – the home of Ballet West. The Master Classes will be conducted at the spacious, modern, brand new Ballet West studios. This is one of our most convenient semi-finals, as all competition venues are located within walking distance. As an added attraction, downtown Salt Lake City is located within a very short distance from ski and snowboard resorts, which are less than an hour's drive away.
